User Manual

ChooseUrNews

1   Start

When opening app for the first time, allow access to phone storage when prompted. You will see a menu showing topics like Sports, Entertainment, Technology, etc. Select the ones you would like to follow, choose OK and you're set! You will see the **News Feed**

2   News Feed

In the news feed, you will see cards that you can scroll through. Each card displays the following

- Headline, associated picture and brief description

- Time and date when article was published

- Estimated reading time

Upon tapping on a card, you can see the **Full Article View**. If you like an article, swipe right on that card, left if you dislike it. It will help us learn your choices and provide you with more relevant articles in future.
On the top right side you will see two buttons:-

- First button takes you to **Bookmarked Articles**

- The second one brings back the prompt where you select topics

3   Bookmarked Articles

Articles that you have bookmarked are stored here. You can tap on a card to see the **Full Article View**. To remove a saved article from bookmarks, swipe left on that card. On top right, you will see a home button that will take you back to **News Feed**

4   Full Article View

You can see the article in its entirety as it would appear on any mobile browser. On the top right side you will see two buttons:-

- First is the share button that lets you send the article's original link through social media

- The second one adds a bookmark that you can later see at **Bookmarked Articles**

Use the back button to go back to **News Feed** or **Bookmarked Articles**, whichever one you visited last
